RMS 2-ROLL MINI-CALENDER

The RMS 2-Roll Mini-Calender was developed to meet the increasing demand for an economical solution to manufacturing small and highly accurate rubber strips for either production or pilot plant set-ups.

RMS Equipment Company is a major internationally recognized designer and manufacturer of state of the art rubber processing equipment including mini-calenders, extrusion systems and tire building machines. Since 1917 we have been an integral part of the rubber industry and our equipment has been uniquely developed *within the industry for the industry.*

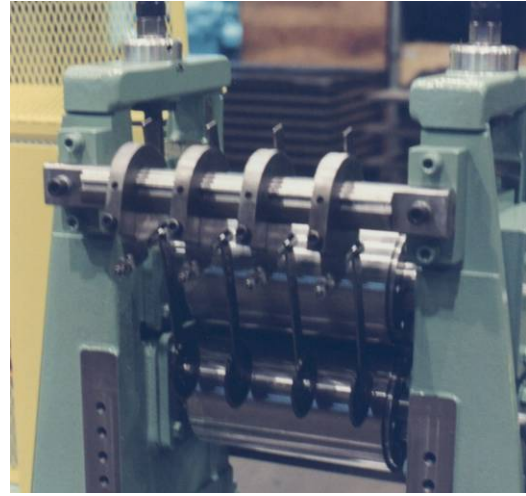

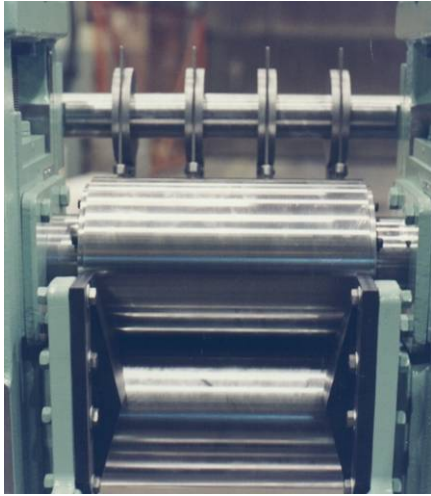

We continue our tradition of working closely with customers to design, manufacture and commission manufacturing equipment that will meet or exceed their individual product requirements for accuracy, reliability, quality and higher productivity.

RMS Pride – A Tradition
Member of the Pettibone Tire Equipment Group
